HEALTH

General subject

Physical Education

Head of Department: Wendy Pearce

Course Outline

Health uses an inquiry approach informed by the critical analysis of health information to investigate sustainable health change at personal, peer, family and community levels. Students define and understand broad health topics, which they reframe into specific contextualised health issues for further investigation. Each term a different health issue is studied

Pathways

Year 11 Health Education

Studying Health can lead to further education and employment in the fields of health science, public health, health education, allied health, nursing and medical professions.

Structure

Areas of study	Core topics
Term 1	• Family Health - Nutrition
