TRINEESHIP PROGRAM

## WHY CHOOSE A CVM TRAINEESHIP?

City Venue Management (CVM) is a leader in managing dynamic aquatic, leisure, and sporting facilities across South East Queensland and New South Wales. We're dedicated to promoting active, healthy lifestyles and, each year, we're proud to support more than 100 students in completing a Certificate 3 through our School-Based Traineeship Program.

### PROGRAM DETAILS:

Within our program, students will work towards a **Certificate III in Sport, Aquatics & Recreation**, gaining real-world experience in swim school management, aquatic operations, and customer service, all while still attending school. The program is open to students who are 16 years old or turning 16 soon.

- **Duration:** typically 12-18 months
- **Learning Requirements:** Students will complete 15 Study Units with our partner RTO
- **Industry Experience:** 563 hours of paid, on-the-job work experience
- **Industry Qualifications:** CPR, First Aid, Swim Teaching, and the opportunity to become a qualified Pool Lifeguard.
- **QCE Points:** Successful completion of the Certificate 3 earns students up to 8 QCE Points!

Students will gain hands-on experience in swim school operations, aquatic management, and customer service, all while continuing their schooling. The program offers students the opportunity to become First Aid and Swim Teaching qualified, with the added bonus of the option to become a qualified Pool Lifeguard.

Through our partnership with **Ampd Academy** and **BUSY At Work**, we ensure students receive the best support and continued training, as they work toward building a successful future.

This traineeship allows students to gain valuable skills and qualifications that not only set them up for success in the Aquatics Industry but also enhance their employability in broader fields. It's a great way for students to gain practical experience, industry qualifications, and a head start on a fulfilling career — all while completing their education.

**HOW TO APPLY:** To make an application, students can visit our [Careers Page](#) or scan the QR code on the attached traineeship flyer for quick access.
