

# RANGER IN TRAINING COURSE

This program will be delivered over the course of seven weeks and will offer the participants (students aged fifteen years and over) a chance to experience the duties involved in working in a wildlife park first-hand. The students will accompany our rangers to take part in a variety of specialised experiences that will teach them everything from the fundamentals of animal training to weed identification and removal. Each week the students will shadow a different ranger or team. This can include a focus on reptiles, macropods, birds, mammals, education and maintenance.

This course will be delivered on a Wednesday afternoon, from 1:00pm – 2:30pm.

*\*Please discuss with your child's school as the program operates within school hours.*

\$123.10 per student (must be 15 and over to participate)

Our program is now live and can be booked through our [online console](#).

\*Please be sure to select the start date of the program first, then make sure the adult and concession sections are at 0, and select how many students you would like to book. A button will then appear on the right showing the total and the word REQUEST beneath it - click this button to proceed with the booking.
